TOP 10 MOVIE SONGS

During many years the **cinema and TV** area have used a lot of songs in movies or series, why? Because movies and music have been a natural combination ever since sound was first added to moving images. This article shows the most popular and best songs in movies over the years.

In fact, if you know that among many others categories of Oscars like "Best movie", "Best actor", "Best Make up", the Oscar also distinguishes the "Best original Song", "Best soundtrack", and may other so the point is that music in movies is very important at least at present. Long time ago movies didn't have sound or music until 1920; however sounds and melodies of pianos have always existed.

The Weekend, Oscar 2015

DRESS OF THE ACTORS IN MOVIES

Costumes and makeup

are very important elements in movies; they can help you to reach the style, of the different characters of the movies. Sometimes this work needs more dedication than others depending on the kind of movie.

In this article we will show you the dressing used in the movies by the actors:

Leonardo DiCaprio, making
of *The Revenant*

Mad Max

is a movie with a lot of dedi-

cation on their clothes and makeup. In fact, one of the most important things of this film; which is set in the **desert**; therefore, the actors need appropriate clothes for that; the actors wear rag, harness, abundant load bags, and leather clothing.

Mad Max

On Guardians of the Galaxy

clothing needs to be appropriate to represent fiction characters, they use a lot of makeup, and dresses are made to simulate fictional comic; with flexible material, sometimes they need amours, or masks, also their dress need to have a lot of details.

Guardians of the galaxy

The Revenant

is a movie that needed too much work on the makeup, especially for the character of **Leonardo DiCaprio**, because they had to simulate the attack of a bear in their body. The dress had to be according to the snow setting, with animal skins and leather pieces to shut out the cold.

The Revenant

By Gabriela Torres

This year is full of new movies that we can't wait to see and one of the most expected is **Civil War**, which includes the return of our favorites superheroes such as **Captain America and Iron Man**. In this movie we are going to see a battle between two big friends supported by the team of Avengers and some very special guests. In the cast we find our beloved actors and actresses like **Chris Evans, Robert Downey jr, Scarlett Johansson, and Elizabeth Olsen**. We attended to the premier to bring you the best details of the event.

The whole cast together showed that the battle only takes place in the screen because they have nothing but love. Referring to what our favorite actors wore, they were very casual at the time to choose an outfit. We saw lots of sweaters, cool jackets and sneakers.

We talk with **Scarlett Johansson, Black Widow**

-What do you think about your character in the movie?

She is a practical person. She uses strategy and doesn't take decisions with her personal life. A thing I want to have from her are her abilities! I would really like to kill with my thighs.

-Do you think about a movie for Widow?

Not any time soon.

Fantastic Beast and where to find them

Fantastic Beasts and where to find them.

After years of waiting the fans of the *Harry potter* franchise are finally getting

Fa

Fantastic Beasts and where to find them.

*ntastic beasts
and where to
find them* is the new
movie adaptation of the
book with the same name
written by J. K. Rowling,
this story is a prequel of the
Harry Potter fran-
chise and it's focused in
the adventures of
Newt Scamander, a

magizoologist that let some magical creatures scape into the non-
magical world and due to this, he has to find a way to recover all the creatures

This movie counts with a great cast of **Oscar** nominated actors like **Eddie Redmayne** (playing the main role), **Ezra Miller** and **Jon Voight**.

Making of Fantastic Beasts and where to find them.

Eddie Redmayne said that his character Newt is much better at relating with beasts and being with his creatures than spending time with another human beings and that on the journey of this film, he begins to find new ways to connect with people but he's not exactly a people-pleaser. He also said that what he loves about Newt Scamander is that he's a passionate man and he'll do whatever it takes to save those beasts.

This movie is going to be in theaters by **November 18th** and is it the perfect choice to go with the family.

WORST 3 MOVIES BASED ON VIDEOGAMES

Let's cook this top and give it a taste with a bit of **humor and criticism**.

Remember that this is made by opinions and not facts, it's all matter of taste.

Doom.

The videogame was a bomb, but after the sequel and the third one; **An-drzej Bartkowiak** decided to make a movie about it.

This movie didn't suck as the other; not same as the videogame, although close enough without the best plot but it was okay.

Hitman.

It isn't a good film, not the worst. The idea was fine, but is a humorless movie, too much use of slow motion.

If you watch this movie, don't expect drama, or a great storyline, not even a tiny piece of feelings.

Try to watch the movie just being conscious that all is gunshots and blood.

Street Fighter.

Without a doubt, the worst movie based on a video game; Horrible special effects, non-sense acting; storyline without argument.

No clue at all why Jean Claude Van Damme made this movie.

M Y NEIGHBOR TOTORO

My Neighbor Totoro

has a gigantic cultural meaning in the whole world;

Totoro has had a lot of cameo appearances in a lot of animated series due to its shocking impact after his appearance.

I know there are a lot of great Japanese movies;

I just had shown you a little,

This is another piece of art with drama and an amazing wildlife. A curious thing about this movie is that it was re-released by Walt Disney Pictures in 2006 due to its huge well reception by the film industries.

Let me tell you a little bit about the movie: Tells the story about two sisters (Satsuki and Mei) that interact with an old spirit of the woods.

I WANT TO DIE!

"I was going back home with my friends after School and suddenly the boy I like appeared, I started to talk louder so he would notice me, he did and said "Hello" but I couldn't answer back cause I was so distracted that I didn't see that hole in the ground and I fell down in front of him, It was so embarrassing. Now, I can't even look at him. **I want to die!** "

"My friends and I went to a swimming pool; we were having a lot of fun when I went off the swimming pool to get something to eat, when I was going back with my fries, a boy appeared, jumped and made me throw all my fries to the water, so a man came really angry to tell me off cause we can't throw food into the pool, he chased me out of there and all my friends started to laugh. **I want to die!**"

The fries thrower

"There was an art exposition by the children of my school, I was walking around there when a boy started to cry right in front of me, I didn't understand but then realized I was standing over his artwork, I was so ashamed. **I want to die!**"
